Contents of Volume 93

Number 1, April 1961

Emery M. Gal, Patricia A. Drewes and Norman F. Taylor. Metabolism of Fluoroacetic Acid-2-C^{14} in the Intact Rat 1

Richard J. Block and Richard H. Mandl and Hartley W. Howard, Clifford D. Bauer and David W. Anderson. The Curative Action of Iodine on Soybean Goiter and the Changes in the Distribution of Iodoamino Acids in the Serum and in Thyroid Gland Digests 15

M. I. Krichevsky. Pyrimethamine Inhibition of a Pyruvate Phosphoroclastic-Type Reaction in a Marine Pseudomonad 25

Yuji Inada, Tamako Kurozumi and Kazuo Shibata. Peroxidase Activity of Hemoproteins. I. Generation of Activity by Acid or Alkali Denaturation of Methemoglobin and Catalase 30

G. S. Eadie and Glen R. Gale. Studies of Enzyme Kinetics. I. The Course of the Reaction and the Effect of a Second Addition of Substrate on Pyruvic Carboxylase of Yeast 37

John H. Pazur and Tadahiko Ando. The Isolation and the Mode of Action of a Fungal Transglucosylase 43

Bernard B. Levine. Studies on the Formation of the Penicillin Antigen. II. Some Reactions of D-Benzylpenicillenic Acid in Aqueous Solution at pH 7.5 50

R. G. Daniel and M. O. Schultze. Inhibition of *Escherichia coli* by *S*-(Dichlorovinyl)-L-cysteine; its Prevention by Aromatic Amino Acids 56

Ernest Sondheimer, Frank Covitz and Mark J. Marquisee. Association of Naturally Occurring Compounds, the Chlorogenic Acid-Caffeine Complex 63

Frank S. LaBella. Studies on the Soluble Products Released from Purified Elastic Fibers by Pancreatic Elastase 72

Jack S. Wilkinson and Virginia R. Williams. Partial Purification of Bacterial Aspartase by Starch Electrophoresis 80

J. F. Woessner, Jr. and Robert J. Boucek. Connective Tissue Development in Subcutaneously Implanted Polyvinyl Sponge. I. Biochemical Changes during Development 85

J. F. Woessner, Jr. and Robert J. Boucek. Connective Tissue Development in Subcutaneously Implanted Polyvinyl Sponge. II. Enzymic Changes during Development 95

G. R. Martin and Christyna E. Mecca. Studies on the Distribution of L-Ascorbic Acid in the Rat 110

Mary Mandels, Gail Lorenz Miller and Robert W. Slater, Jr. Separation of Fungal Carbohydrases by Starch Block Zone Electrophoresis 115

N. R. Moudgal and Choh Hao Li. Immunochemical Studies of Bovine and Ovine Pituitary Growth Hormone 122

T. Viswanatha and W. B. Lawson. The Action of *N*- Bromosuccinimide on Chymotrypsin 128

Rapier H. McMenamy, Charles C. Lund, Joseph Van Marcke and J. L. Oncley. The Binding of L-Tryptophan in Human Plasma at 37°C. 135
S. Shibko and Gifford B. Pinchot. The Effects of Magnesium and Polyanions on Oxidative Phosphorylation in Bacteria 140
Seymour H. Pomerantz and Muriel T. Asbornsen. Glucose Metabolism in Young Rat Skin 147
Haruo Nakamura and David M. Greenberg. Purification of Mevalonic Acid Dehydrogenase from Rat Liver by DEAE-Cellulose Column Chromatography 153
M. Boulet and J. R. Marier. Precipitation of Calcium Phosphates from Solutions at Near Physiological Concentrations 157
J. Oró and C. L. Guidry. Direct Synthesis of Polypeptides. I. Polycondensation of Glycine in Aqueous Ammonia 166
B. Jirgensons. Complex Rotatory Dispersion of Proteins in the Near Ultraviolet Range 172
Letters to the Editors
J. Harley-Mason. Mechanism of Transaminase Action 178
C. De Marco, M. Coletta, and D. Cavallini. Spontaneous Transulfuration of Sulfinates by Organic Persulfides 178
V. N. Orekhovich and N. E. Plotnikov. (Translated by J. A. Stekol.) On the Specific Effect of Glycerol on the Walls of the Blood Vessels 180
List of Forthcoming Papers 183

Number 2, May 1961

Richard A. Ferrari and A. A. Benson. The Path of Carbon in Photosynthesis of the Lipids 185
Leopold Weil and Thomas S. Seibles. On the Structure of α-Lactalbumin. I. Degradation Studies with Carboxypeptidase A and Carboxypeptidase B 193
Z. Dische and D. Igals. Mechanisms in the Interconversion of Ribose 5-Phosphate and Hexose 6-Phosphate in Human Hemolyzates. II. Erythrose 4-Phosphate as Intermediate and Rate Regulator in the Interconversion of Ribose 5-Phosphate and Hexose 6-Phosphate 201
Paul H. Gale, Frank R. Koniuszy, Atwood C. Page, Jr., Karl Folkers and Henry Siegel. Coenzyme Q. XXIV. On the Significance of Coenzyme Q_{10} in Human Tissues 211
Myron K. Brakke. Wall Effects During Density Gradient Centrifugation of Southern Bean Mosaic Virus 214
T. G. Brady, P. F. Duggan, C. McGann and E. Tully. Study of the Endogenous Fermentation Induced in Baker's Yeast by Azide, 2,4-Dinitrophenol and Arsenite 220
Albert E. Purcell and Guy A. Thompson, Jr. Glucose as a Carbon Source for Carotene Synthesis in Tomatoes 231
N. L. Somerson, A. L. Demain and T. D. Nunheimer. Reversal of Lysine Inhibition of Penicillin Production by α-Aminoadipic or Adipic Acid 238
Robert Van Reen. Metabolism in Calcified Tissues: Pyridine Nucleotidases of the Rabbit Femur 242
N. J. Hipp, M. L. Groves and T. L. McMeekin. Separation of the Components of α-Casein. II. The Preparation of α_3-Casein 245
Carol Chang, Jeng M. Hsu, Robert L. Davis and Bacon F. Chow. Further Studies on Vitamin B_{12} Deprivation and Carbohydrate Metabolism 251
Iris Maggiolo Barbato and Norman R. Alpert. The Preparation and Characteristics of a Purified Muscle Adenosinetriphosphatase 255

P. Madhusudanan Nair and C. S. Vaidyanathan. Tryptophan Synthetase in Plants 262
A. L. Grossberg, E. H. Harris and M. Schlamowitz. Enrichment and Separation of Alkaline Phosphatase Activities of Human Tissues by Chromatography on Cellulose Ion-Exchange Adsorbents 267
S. Abraham, Walter M. Fitch and I. L. Chaikoff. Mannose Metabolism and the Demonstration of Mannokinase and Phosphomannoisomerase Activities in the Lactating Rat Mammary Gland 278
A. Gourevitch, T. A. Pursiano and J. Lein. Destruction of Mitomycin by *Streptomyces caespitosus* Mycelia 283
Edward H.-C. Sie, W. D. McElroy, Frank H. Johnson and Y. Haneda. Spectroscopy of the *Apogon* Luminescent System and of its Cross Reaction with the *Cypridina* System 286
Yuan C. Lee and Rex Montgomery. Determination of Hexosamines 292
John C. Kirschman and John G. Coniglio. Polyunsaturated Fatty Acids in Tissues of Growing Male and Female Rats 297
Ervin G. Erdös. Esterases in Fireflies and their Inhibition 302
Mendel Mazelis. A Light-Stimulated Production of an Oxidant by Pryidoxal Phosphate, Mn^{++} and Amino Acids 306
J. M. Peters and D. R. Sanadi. Effect of Arsenite and Cadmium Ions on Xanthine Oxidase 312
Leonard A. Herzenberg. Isolation and Identification of Derivatives Formed in the Course of Intracellular Accumulation of Thiogalactosides by *Escherichia coli* 314
Jerome Polatnick. Effect of Dinitrophenol on Bovine Kidney Culture Cells Infected with Foot-and-Mouth Disease Virus 316
T. T. Hlaing, J. P. Hummel and Rex Montgomery. Some Studies of Glucose Oxidase 321
N. K. Sarkar. The Priming Activities of Deoxyribonuclease-Treated Deoxyribonucleic Acid Preparations in Two Enzyme Systems for Deoxyribonucleic Acid Synthesis *in Vitro* 328
Roy L. Whistler and Blanche D. E. Gaillard. Comparison of Xylans from Several Annual Plants 332
A. R. Schulz and P. D. Boyer. The Fate of Oxygens of Inorganic Phosphate in Photophosphorylation 335
G. F. Murphy and T. L. Sourkes. The Action of Antidecarboxylases on the Conversion of 3,4-Dihydroxyphenylalanine to Dopamine *in Vivo* 338
Charles W. Nagel and Reese H. Vaughn. The Characteristics of a Polygalacturonase Produced by *Bacillus polymyxa* 344
J. Molnar and L. Lorand. Studies on Apyrases 353
Stanton Segal and James Conrad. Rat Diaphragm Studies with 3-Deoxyglucose (3-Deoxy-D-ribohexose) 364
Raymond G. Esposito and Alison M. Fletcher. The Relationship of Pteridine Biosynthesis to the Action of Copper 8-Hydroxyquinolate on Fungal Spores 369
B. D. Sanwal. Diphosphopyridine Nucleotide and Triphosphopyridine Nucleotide Linked Glutamic Dehydrogenases of Fusarium 377
Robert L. McGeachin, James M. Reynolds and James I. Huddleston, Jr. Relationships among Amylases Determined by Rabbit Antisera to Human Salivary Amylase 387
Georg W. Oertel and Kristen B. Eik-Nes. Isolation and Identification of 4-Pregnen-17α-ol-3,20-dione and 5-Pregnen-3β-ol-20-one from Human Blood Plasma 392

B. Rosenberg, R. A. Orlando and J. M. Orlando. Photoconduction and Semiconduction in Dried Receptors of Sheep Eyes 395
Luisa Tosi and F. Ghiretti. A Study of Cytochrome h 399
Tatsuya Samejima and Kazuo Shibata. Denaturation of Catalase by Formamide and Urea Related to the Subunit Make-Up of the Molecule 407
W. L. Butler. A Far-Red Absorbing Form of Chlorophyll, *in Vivo* 413
Frank DeVenuto and Ulrich Westphal. Isolation of Δ^4-Pregnene-11β,17α,20β,21-tetrol-3-one from Skeletal Muscle of Normal and Stressed Rats after Injection of Cortisol-4-C^{14} 423
Elbert A. Peterson, Mary M. Wyckoff and Herbert A. Sober. Gradient Chromatography of Human Serum Proteins and Its Application to the Examination of "Albumin" and "Globulin" Obtained by Ammonium Sulfate Fractionation 428
Robert P. Igo, Bruce Mackler and Helen Duncan. Liver Aldehyde Oxidase: The Nature of Hematin Component 435
J. F. Woessner, Jr. The Determination of Hydroxyproline in Tissue and Protein Samples Containing Small Proportions of this Imino Acid 440
James W. Campbell. Studies on Tissue Arginase and Ureogenesis in the Elasmobranch, *Mustelus canis* 448
Letters to the Editors
Andreas Chrambach, Michael Bárány, and Frances Finkelman. The Bound Calcium of Actin 456
Enrique Belocopitow. The Action of Epinephrine on Glycogen Synthetase 457
C. Ó. hEocha and R. F. Lambe. The Prosthetic Group of C-Phycocyanin 458
A. Nisonoff and M. M. Rivers. Recombination of a Mixture of Univalent Antibody Fragments of Different Specificity 460
Book Reviews 463
List of Forthcoming Papers 467

Number 3, June 1961

Gerald Gilbert, Theodor Wagner-Jauregg and George M. Steinberg. Hydroxamic Acids: Relationship between Structure and Ability to Reactivate Phosphonate-Inhibited Acetylcholinesterase 469
Harold Werbin and I. L. Chaikoff. Utilization of Adrenal Gland Cholesterol for Synthesis of Cortisol by the Intact Normal and the ACTH-Treated Guinea Pig 476
Pierre Budowski, Nestor R. Bottino and Raymond Reiser. Lipid Transport in the Laying Hen and the Incubating Egg 483
H. R. Mahler and Carol Dahl. Some Oxidation Reactions of *N*-Benzyl-1,4-dihydronicotinamide 491
Robert M. Dowben and Walter R. Koehler. The Interaction of a Nonionic Detergent with Protein I. Physical Properties of the Protein Detergent Complex 496
Walter R. Koehler and Robert M. Dowben. The Interaction of a Nonionic Detergent with Protein II. Effects on a Bovine Plasma Albumin-Azomercurial Complex 501
Rafael J. Martinez. Specificity of the Phosphate Donor in the Hexokinase Reaction 508
Tetsuro Kono and Sidney P. Colowick. Stereospecific Sugar Transport Caused by Uncouplers and SH-Inhibitors in Rat Diaphragm 514
Tetsuro Kono and Sidney P. Colowick. Isolation of Skeletal Muscle Cell Membrane and Some of Its Properties 520
Roy L. Kisliuk and M. R. Spivey Fox. Studies on the Toxicity of Amethopterin and Tetrahydroamethopterin in Chicks 534
Samuel I. Epstein and Paul A. Possick. Inhibition of Enzymic Hydrolysis of Plasma Albumin by Detergents 538
J. W. Hylin and Hiromu Matsumoto. The Biosynthesis of 3-Nitropropanoic Acid by *Penicillium atrovenetum* 542

HERBERT C. TIDWELL AND JOHN M. JOHNSTON. Glyceride Glycerol Utilization in Triglyceride Formation 546
S. FRIEDMAN. Inhibition of Trehalase Activity in the Hemolymph of *Phormia regina* Meig 550
ROBERT RABSON, RUSTY J. MANS AND G. DAVID NOVELLI. Changes in Cell-Free Amino Acid Incorporating Activity during Maturation of Maize Kernels 555
WOLFGANG SCHAUMANN. Cholinesterase Activity *in Vitro* and *in Vivo* after Poisoning with Organophosphorus Anticholinesterase Agents 563
P. C. SCHOLTEN. Electrophoresis and Sedimentation of Isomerizing Systems 568
JOHN R. CANN AND HERBERT R. BAILEY. Theory of Isomerization Equilibrium in Electrophoresis. II 576
JAY S. JACOBSON. The Brown Pigments of Autolyzed Tobacco Leaves I. Isolation and Characterization 580
JAY S. JACOBSON. The Brown Pigments of Autolyzed Tobacco Leaves II. Incorporation of Labeled Rutin and Chlorogenic Acid 591
C. M. FRENCH AND R. PRITCHARD. The Magnetochemistry of Some Carcinogens and Related Compounds 598
DARCY GILMOUR AND MARTIN GELLERT. The Binding of *p*-Chloromercuribenzoate by Myosin 605
ELMER L. BECKER. Antigen-Antibody Reactions in Agar. VI. A Method for the Determination of Antigen and Antibody Concentrations in Absolute Weight Units 617
ALONZA R. HAYDEN AND ELMER L. BECKER. Antigen-Antibody Reactions in Agar. VII. The Application of Gel Precipitin Analysis to the Quantiative Determination in Absolute Weight Units of Mixtures of Antigens and Their Antibodies 631
HANS BROCKERHOFF. On the Configuration of the Phosphatidyl Group and the Distribution of Fatty Acids on Phosphatidylinositol 641
CHARLES E. WENNER AND KENNETH PAIGEN. The Role of Pyruvate in the Oxidation of Glucose and Lactate 646
H. F. DEUTSCH AND JANE I. MORTON. Physical-Chemical Studies of Some Modified Ovomucoids 654
JANE I. MORTON AND H. F. DEUTSCH. Immunochemical Studies of Modified Ovomucoids 661
H. S. OLCOTT AND A. LUKTON. Hemichrome and Hemochrome Formation with Anserine, Carnosine and Related Compounds 666
LETTERS TO THE EDITORS
MASAYUKI IKEDA, HIROSI MURAKAMI, AND MASASHICHI NISHIO. The Correlation between Detoxicating Enzyme Activity and Benzol Susceptibility 670
PHOEBE S. LEBOY AND ROBERT L. CONNER. Effect of a Steroid Deficiency on Oxidative Phosphorylation in Guinea Pigs 672
V. ERSPAMER, A. GLÄSSER AND M. B. NOBILI. The Fate of 5-Hydroxy-N-Acetyltryptophan and 5-Acetoxy-N-Acetyltryptophan in the Rat Organism 673
List of Forthcoming Papers 675
Books Received for Review 676
Author Index 678
Subject Index 681
Index of Book Reviews 683
